SUMMARY

Enthusiastic Software Developer with expertise in Full-Stack Web Development. Experienced in building responsive web applications using HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB. Strong problem-solving mindset with a passion for learning modern technologies and developing efficient software solutions.

EDUCATION

B.Tech in Electronics and Communication Engineering , ABES Engineering College	2023 – 2027
Class XII , Scottish International School, Shamli — CBSE	2023
Class X , Scottish International School, Shamli — CBSE	2021

TECHNICAL SKILLS

Frontend: HTML/CSS, JavaScript, React.js
Backend: Node.js, Express.js
Database: MongoDB
Programming Languages: Java
Core Concepts: Data Structures & Algorithms, CRUD Operations, REST APIs
Tools & Platforms: Git, GitHub, VS Code

EXPERIENCE

Web Developer Intern <i>Ruaanya Fintech</i> – Develop web application features using frontend and backend technologies – Build and integrate APIs to support application functionality – Collaborate with the development team to test, debug, and improve application features	Aug. 2026 – Present
---	---------------------

PROJECTS

AI-Powered Smart Campus <i>React.js, Node.js, Express.js, MongoDB, Gemini API</i> GitHub Live – Developed a full-stack campus platform with dedicated student, teacher, and admin portals. – Implemented complaint management with rule-based priority levels: High, Medium, and Low. – Integrated Gemini API for AI-based complaint categorization into Academic, Infrastructure, Electrical, Security, Cleanliness, and Other.	Aug. 2026 – Sep. 2026
Wanderlust <i>Node.js, Express.js, MongoDB, Mongoose, EJS</i> GitHub Live – Developed a property listing platform with user authentication and authorization. – Implemented authorization so users can edit or delete only their own listings, along with ratings and reviews. – Integrated interactive maps to display property locations based on city.	Feb. 2026 – Jul. 2026
Weather App <i>React.js, OpenWeather API</i> GitHub – Built a React-based weather application to search and display weather information for different cities. – Integrated OpenWeather API to fetch real-time temperature, humidity, and weather conditions.	Aug. 2026

CERTIFICATIONS

Python for Data Science and Machine Learning — IIT Roorkee
GitHub Copilot DevDays Ignite Participant — Microsoft (Gurgaon Office)
Career Essentials in Generative AI — Microsoft and LinkedIn Learning
Full Stack Web Development — Apna College
Data Structures and Algorithms in Java — Apna College

EXTRACURRICULAR ACTIVITY

Content Coordinator <i>Enigma Programming Club, ABES Engineering College</i>	Oct. 2024 – Present
--	---------------------
